

Example: Combined Lists. If more than one list has only one or two entries, then those lists may be placed on one page under a suitable title, keeping like listings together. In **all other** instances, each list appears on separate pages, i.e., List of Figures, List of Tables.

LIST OF FIGURES AND TABLES

Figure 1.1 General location of Kenai Peninsula and Cook Inlet (modified from Magoon, 1994).	4
Figure 2.1 Time series segment of approximately 2.5 minutes for stations k201 and k202. Electric fields are shown in red.	36
Figure 3.1 Apparent resistivity and phase versus period for station k201.	49
Figure 3.2 Isostatic residual/gravity anomaly. The MT station locations are plotted as dots.	51
Table 1.1 Twist and Shear bounds for MT stations.	7
Table 1.2 Input values for the static shift factors of stations k001 and k203.	9
Table 3.1 Typical ranges of resistivities of earth materials.	49
